NEW ENGLAND MUTUAL LIFE INS.,  
OF Boston, Mass., Chartered in 1843.

Capital and accumulation, \$650,000.

THIS Company is one of the oldest,  
and among the most prudently and successfully  
conducted in the country. The primary object in con-  
ducting its business has been to provide perfect se-  
curity under all conceivable circumstances, for the pay-  
ment of its losses under its policies, and to return to the  
insured the surplus at stated periods, and strict  
economy is observed.

Every insured person is a member of the company  
and shares in the profits of the business, and is subject to  
no liability or assessments beyond his premium.

The directors are required to be peculiarly interested  
in the company, and they give it their personal atten-  
tion and best efforts to secure security, given by its  
officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife,  
which is secured to her by law beyond the reach of a  
husband's creditors; and creditors may insure the  
lives of debtors.

# The Daily Gazette.

TUESDAY MORNING, JULY 17, 1854.

**OUR TRI-WEEKLY.**—We commence to-day the publication of a tri-weekly edition of the Gazette, and send out copies to such of our friends as we trust will interest themselves in getting up a list of subscribers. May we not ask at least that they will show the copies sent them, to their friends. Those who enjoy a tri-weekly or semi-weekly mail we shall be able to furnish with later news than they can obtain from any other source, and shall endeavor to make the paper valuable to them in other departments besides that of news. The terms will be \$3 a year, payable in advance. Friends, let us hear from you at once that we may be able to calculate upon the preparations necessary to meet your wants.

**It** is a painful duty to be obliged so often to find fault with the weather, but really the amount of caloric mixed in now-a-days is altogether out of proportion, besides being insupportable. "Fahrenheat" ranges from 95 to 100 in the shade, and scarcely a breath of air is stirring. We protest against it—can't stand it. If any delinquency is noticed by our readers in to-day's paper, we needn't be blamed—charge it to the weather. Writing is out of the question, and as for work, one of our journeymen "petred" in the early part of the day yesterday and the "devil" who took the vacant case, in a short time went to find his older associate and forgot to come back. Even old Jabe has to keep his shining pate under the shade of the awnings these days. Can't double headed Brown relieve us with that "cool thing" that took place the other day on the cars?

**LOOK OUT!**—We are informed that a mad dog was seen in our streets on Sunday, and that he was seen to bite another dog. The common council have been heretofore urged to take some precautionary measures in reference to this matter. If this report be substantiated as we doubt not it can be, action should not be delayed upon it another day. It is certainly paying dearly enough for the trifling service dogs may render their masters, that the whole town should be annoyed by their nightly howlings, but when the lives of citizens come to be endangered, and every one who walks the streets is exposed to the dreadful disease, hydrophobia, the matter becomes too serious and alarming to think of the value of a dog for a moment.

**New Post Office in Greene County.**—A new post office has been established, eight miles west of Monroe, on the road to Galena, to be called Skinner, Isaac Williams postmaster. Also a new office at Shewey's Mills in the town of Clarno. J. W. Shewey, postmaster.

**A Story of TAINTED BLOOD.**—The following extraordinary case occurred in Mississippi under the slave laws of that state:

A planter was afflicted with a loathsome disease. So offensive were his ulcers that he was deserted by his white friends; and, while thus afflicted and forsaken, a girl, whom he owned as a slave, kindly and patiently waited upon him, dressed his ulcers, cleansed his person, and watched over him until he eventually recovered. With gratitude and affection to his benefactor, he took her to Cincinnati, in Ohio, executed her a deed of manumission, had it recorded, returned to Mississippi, and there married her in legal form. They lived together affectionately, for many years, reared a family of children, and, as he lay upon his death-bed, by will be divided his property between his wife and children. His brothers hearing of his death came forward and demanded the property—the widow and children were indignant at the demand. They too were indignant, and the validity of that will was tried before Judge Charley, of that state, who decided that the whole matter was a fraud upon the law of slavery—that the property belonged to the collateral heirs. His widow was sold by the surviving brothers, the children were bid off at public auction, and both mother and children now toil in chains, or sleep in servile graves.

**POSTAGE NORTH AND SOUTH.**—It appears by a table carefully prepared by Mr. Haven, congressman from Buffalo, and read by him in a speech against increasing the rates of postage, that thirteen of the slave states do not pay the cost of transportation of the mails, within their borders, while only four free states fall behind, and three of these are the new states of Michigan, Illinois and California, which will in a few years pay back all the surplus expenditures made in their favor. Thirteen free states yield a postal surplus revenue of more than a million-and-a-half dollars, while the thirteen slave states above stated fall short of their postal expenses above three-quarters of a million. New York gives \$730,497 more than she takes, while chivalrous Virginia takes \$129,762 more than she gives. Free soil Massachusetts yields a net postal revenue of \$223,849, while filibustering South Carolina goes to the treasury a beggar for \$44,184.

**SAGACITY OF A RAT.**—An elderly gentleman on the west side gave us the following curious facts which are fully illustrative of the sagacity of the rat species:

On last Saturday evening, as the rain was falling in torrents, deluging the little yard by the house; a large rat was observed to come hurriedly out of a hole by the side of the house, where the water was pouring in, and springing across to an opposite building, for a moment disappeared. Back again came the rat and plunged into the hole, which was fast being filled with water, and in a moment reappeared, bearing in her mouth, a young rat, which she carried to the opposite building. Thus she continued to labor until five of the young had been rescued from a watery grave, and deposited in a place of safety. Watching closely her movements, our friend soon discovered the mother again coming from the wall with one of her young in her mouth, which she dropped down upon the ground, and after looking a moment, again took it up, and trying to wake it, laid it down again. The little one was dead, it had been drowned; although the parent rat had done all within her power to save her young, yet one had been drowned. After repeated efforts to bring to life her offspring, she mournfully left the little one, and went to the new home she had prepared for her unfortunate family.—*Young America.*

**Navy & Merchants' Advertiser.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Wissipan completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon.

They have started in New York a new paper called the Weekly Leader, edited by Mr. A. P. Boyle and others, who will write what they think over their own names. It is a journal of opinion. Amongst the editorials is the following, which for its brevity we very much admire:

**THE MAINE LAW.**—It is my opinion, that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Wissipan completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon.

**A PROBABLE KIDNAPPER.**—When a man is accused of being somebody's chattel, according to the laws, not of the United States, for they know no human chattels; much less those of nature, or of nature's God, but of Virginia, Alabama, or some other barbarian state wherewithal we are unhappy connected, there is a prompt mustering and hurrying of all the forces of the Union to throttle the man guilty of having been robbed of his liberty from birth, and force him into everlasting bondage. But when a man-stealing kidnapper is detected and denounced—one who has stolen a freeman and sold him into everlasting bondage for paltry gain—we see no such alacrity, no such zeal, no such array of force, summoned to consign him to the punishment which the laws even of slaveholding states provide for him. Is this fair?

We learn that Merrill, the alleged kidnapper of Solomon Northrup, a free colored citizen of this state, who was thereby subjected to twelve years of inhuman bondage and suffering as a slave in Louisiana, was arrested on Friday morning near Gloversville in Fulton county, and finally identified by Northrup as the villain who stole and sold him into slavery. We presume there can be little or no doubt of his guilt. Well: does any man suppose that the arm of the federal government will be stretched out to insure his conviction?—that judges, marshals, commissioners, district attorneys, soldiers, &c. will be rallied into superhuman activity in order to insure the execution of justice on this culprit? Who is so green as to suppose it?—N. Y. T.

**ANTI-NEBRASKA RESOLUTIONS.**—Preamble and resolutions adopted by the Wisconsin Convention of Universalists, at its annual session in Fond du Lac, June 3d and 4th, 1854.

**Whereas,** It is the acknowledged right and privilege, saying nothing of the duty, of any religious body freely to express and publish its opinions on any subject of state or national importance, affecting the moral interests or social welfare of society,—therefore Resolved,

1. That the recent action of the congress of the United States, in the passage of the Nebraska-Kansas Bill, so called, by which the wrong, the curse, the immorality of human bondage are allowed to spread their blighting influence over a large territory which we had supposed, forever, to free people and free institutions, is deserving of the unmitigated condemnation of every individual who loves liberty and hates oppression.

2. That in the spirit of the gospel, which breathes peace on earth and good will to men, and in the exercise of such legitimate means as are within our reach, we will labor earnestly to extirpate the sin of slavery from our country and the world,—conceiving this to be our duty as patriots and philanthropists, but more especially as christians.

3. We reiterate here the sentiments advanced in previous sessions of this body, expressive of our deep devotion to the cause of temperance; and we recommend our friends throughout the state to labor on more earnestly than heretofore to bring about the enactment, through our state legislature, of a law to prohibit the manufacture and sale of intoxicating drinks.

On motion, the preamble and resolutions were unanimously adopted.

The Washington Union affects to be alarmed at the prospective "dissolution of the whig party." This is a mere "whistle" as it finds itself passing the grave-yard of its own party in Maine, Connecticut, Rhode Island and New Hampshire. It is quite natural that, with so many tomb-stones in its eye, it should discourse of the "dissolution" of something.—Albany Evening Journal.

**A NEW ARTICLE OF EXPORT.**—We noticed yesterday, on the departure of the steamer Michigan for Chicago, that her whole upper deck was covered with wash-tubs, pails, &c. shipped by Messrs. J. Day & Bro. They are manufactured at the extensive factory of Mr. Smith, at Menasha, and are becoming very important article of export.—Green Bay Advocate.

**EXTRAORDINARY COIN.**—Under instructions of the secretary of the treasury, given some months since to the mint of the United States, to collect specimens of counterfeit coins in circulation, for the purpose of examination and report, one has lately been received of a very singular character. It purports to be a Mexican dollar, coined at the city of Mexico in 1851. The Union says:

Two pieces have been assayed, and give an average fineness of 776 thousandths, and a consequent value of 91½ cents in silver; but, strange to say, the amount of gold contained in them is sufficient to add 12 cents to the value of each, after paying the charge of separating, making a net value of 103½ cents; and if to this the usual premium on silver is added, the whole of this counterfeit coin is actually 109 cents!

The quality of the silver in these dollars proves them to be a spurious issue. There is also an irregularity in the letters Mexicana, which is regarded as a test for throwing them out. We learn from a source familiar with them in Mexico, where they appear to have had at times a considerable circulation. The silver produced by the Mexican mines is understood to contain gold, but generally too small an amount to defray the expense of parting. In making the coins in question, it would seem that silver more auriferous than usual had fallen into hands capable of the double dishonesty of cheating the public and themselves at the same time.

The Mormons may have chased off United States officers in President Fillmore's time, but the people of Erie, Pa., have chased off United States officers in President Pierce's time. The expulsion of United States officers by an Erie mob, was as great an outrage as the expulsion of United States officers by a Mormon mob. Besides, the people of Erie are one in fifth part so hard to get at as the Mormons, and we very much doubt whether they would fight half so hard after being got at. Why didn't Pierce punish the Erie rascals for driving away the officers of the United States government with rotten eggs? If he wished to spare the effusion of blood, why didn't he at least order a few thousand United States soldiers to march there, all equipped with baskets of rotten eggs, and thus prepared to fight the Pennsylvanians with their own weapons? Even after a general fight of that kind, Erie could have scarcely been in worse order than she is now.—Lou. Journal.

They have started in New York a new paper called the Weekly Leader, edited by Mr. A. P. Boyle and others, who will write what they think over their own names. It is a journal of opinion. Amongst the editorials is the following, which for its brevity we very much admire:

**THE MAINE LAW.**—It is my opinion, that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Wissipan completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon.

**DOUGLASS WITH HIS FLAIL.**—Senator Douglass has aroused the indignation of the know nothing, without the least provocation or necessity. He seems to be a bumbling sort of marplot, without sufficient tact or sense to avoid running his head against a wall, when there is abundant room to go around it. He was invited to address the democracy in Philadelphia, on the fourth, and instead of confining himself to legitimate topics of discussion, what must he do but launch off in a tirade of abuse of the know nothing, whom he denounced unsparingly, as enemies of the constitution and ignorant of the aims of true government. So unpalatable was his language and manner that the audience became excited—several persons expressed their disapprobation of the speaker's remarks; there were cries of "Let him go on in his own way!" "Turn him out!" &c., and when he attempted to engage the attention of the disaffected he failed utterly, and brought his speech to an abrupt close.

According to our information respecting the condition of affairs in Pennsylvania, the whigs did not need any aid from Douglass to render their triumph certain at the October election. The democratic party is assuredly doomed to ignominious defeat; but it was an ungracious as well as foolish proceeding on the part of the little demagogue, to increase and complicate the embarrassments of his associates, without the least prospect of benefiting himself. Such a course might have been expected of him, however; for he has been swinging his flail with great damage to himself and friends, ever since he undertook to make capital at the south by repealing the Missouri compromise. The concentrated efforts of all the whigs in the country would not have worked so much injury to the democratic party in a twelve-month, as Douglass produced in one-fourth that time. He has turned the states against the administration, and secured an opposition majority in the next congress; and like the English magistrate, spoken of by Mr. Weller, who never committed a prisoner without first committing himself, he has acted with perfect impartiality, and involved himself in the ruin he has brought upon Pierce.

**PROSPECTS OF AN ATTACK ON SEVASTOPOL.**—The following is an extract of a letter from the Black Sea to the London Times:

"Unless the enemy leaves Sebastopol, it is difficult to see what can be done in that quarter except to watch the harbors closely and distract the empire by the destruction of its maritime trade. Every means has been used to draw the Russians from the security of their batteries. First, the fleet approached, leaving behind two of three deckers, which were stationed out of sight of the Russians, but sufficiently near to come to the assistance of the squadrons in case of need. It was thought that the appearance of a diminished force would tempt the enemy to a sortie, but the Muscovites remained immovable. Next the fleet lay off, and two seamen went in close to the mouth of the harbor, but with no better success. A sailing frigate was next sent, which might inspire a hope of capture with a short race. All these expedients have been equally unavailing, and the Russian fleet is no doubt furnished with explicit instructions not to venture out. An attack on Sebastopol itself is no doubt impracticable, except with the assistance of a land force. The ships must enter singly into the narrow mouth of the harbor, were the fire of 800 pieces of cannon can be directed on each one in turn. Naval officers say that even the smoke caused by so tremendous a fire would be sufficient to make the entrance quite impossible, except to those who knew the harbor well."

**WHAT THE FLEET IS GOING TO DO.**—The London News states that the combined fleets made a junction on the 13th, and that the combined force was 54 sail, armed with 2,726 guns, and manned with 20,150 seamen and marines. The News adds:

"It is said that at the late cabinet council a dispatch from Admiral Sir Charles Napier was discussed, in which he defined his intentions in reference to the operations against Russia in the Baltic. The propositions of the gallant admiral are understood to be of a character quite consonant with the tenor of the most remarkable points in his past career, and great news from the north may be expected before long, should no unfortunate changes of intention arise. If we had the most exact knowledge of Admiral Napier's plans our patriotic sense of duty would forbear any publication of them, remembering as we do that there are electric wires from London to St. Petersburg, and, unhappily, too many people who—enjoying the privileges and flourishes under the shelter of our constitutional system—would like no better task than giving information or other aid to the Czar. But this we may say, that we have heard enough of the plans in question to justify a confident belief that a great blow will be struck against Russia before long. The Czar's frontier is long and open, and he need now to watch its whole line. But no watching is likely to avail him from the coming shock."

**CRYSTAL PALACE TO BE SOLD.**—P. T. Barnum yesterday resigned the office of president of the Crystal Palace company. He resigns as his reason for doing so, the too heavy duties imposed upon him.

**OAK HILL CEMETERY.**—A special meeting of the Trustees of this Association will be held at the bank of H. B. Bunster, FRIDAY EVENING, July 21st, at eight o'clock, for the transaction of important business. A prompt attendance is requested. July 18th, WM. MACLOON, Pres't. CHAS. HOLT, Sec'y.

# THE DAILY GAZETTE.

**THE MARKETS.**—There is so little doing in the grain market that we have not thought it of much use to our readers to give quotations very regularly. As soon as transactions again begin to be very considerable, we shall resume our daily report.

The commendation bestowed upon Gov. Matteson, of Illinois, for refusing to pardon the men engaged in the murder of Mr. Story at La Salle must be retracted. He has committed their sentence to imprisonment for life.

Mr. Williams, the removed postmaster at Watertown, has been re-instated.

Some idea of the importance of the perfume made in France may be formed from the fact, that one manufacturer employs each year 5,000 kilogrammes of orange peel, 37,000 kilogrammes acacia flowers, 27,000 kilogrammes violets, 8,000 kilogrammes lilac flowers and about a similar quantity mint, thyme, lavender, and other odorous plants.

The seven-million check, in settlement of the Gadsden treaty, was paid at the sub-treasury, in this city, this morning. The gold was put in small white bags, placed into boxes on a cart, and carried to the respective banks in which it was to be deposited.—*N. Y. Eve. Post*, 11th inst.

**NEW WHEAT.**—We learn that some of the winter wheat in this vicinity has been harvested, and samples have been sent by dealers. The crop is very heavy, the berry plump and fine. The winter wheat is out of danger, and there is no fear for the spring crop.—*Wisconsin*.

**THE MILLS.**—Little is doing at the mills just now. One or two have stopped, and the others grind a few hundred bushels a day. They are all undergoing thorough repair, for the fall work, and busy times will be seen again in about a month, when the new crop begins to pour in its abundance.—*Wisconsin*.

**NARROW ESCAPE.**—During the thunder shower on Friday afternoon, in Detroit, the house of Mr. Pierce, on Woodward Avenue, was slightly damaged by lightning. One of Mr. Pierce's children was sitting by an open window at the time, reading a newspaper, which the lightning set on fire, without in the least injuring the child.—*Chicago Press*.

**A SIGN OF PROGRESS.**—A large quantity of lumber is being brought into this city from the Wolf river pines, but the demand for it is so great that no one apprehends that this market will be too heavily stocked.—*Fond du Lac Union*.

# The Daily Gazette.

TUESDAY MORNING, JULY 17, 1854.

**OUR TRI-WEEKLY.**—We commence to-day the publication of a tri-weekly edition of the Gazette, and send out copies to such of our friends as we trust will interest themselves in getting up a list of subscribers. May we not ask at least that they will show the copies sent them, to their friends. Those who enjoy a tri-weekly or semi-weekly mail we shall be able to furnish with later news than they can obtain from any other source, and shall endeavor to make the paper valuable to them in other departments besides that of news. The terms will be \$3 a year, payable in advance. Friends, let us hear from you at once that we may be able to calculate upon the preparations necessary to meet your wants.

**It is a painful duty to be obliged so often to find fault with the weather, but really the amount of caloric mixed in now-a-days is altogether out of proportion, besides being insipidable. "Fahrenheit" ranges from 95 to 100 in the shade, and scarcely a breath of air is stirring. We protest against it—can't stand it. If any delinquency is noticed by our readers in to-day's paper, we needn't be blamed—charge it to the weather. Writing is out of the question, and as for work, one of our journeymen "petered" in the early part of the day yesterday and the "devil" who took the vacant case, in a short time went to find his older associate and forgot to come back. Even old Jabe has to keep his shining pate under the shade of the awnings these days. Can't double headed Brown relieve us with that "cool thing" that took place the other day on the cars?**

**LOOK OUT!**—We are informed that a mad dog was seen in our streets on Sunday, and that he was seen to bite another dog. The common council have been heretofore urged to take some precautionary measures in reference to this matter. If this report be substantiated as we doubt not it can be, action should not be delayed upon it another day. It is certainly paying dearly enough for the trifling service dogs may render their masters, that the whole town should be annoyed by their nightly howlings, but when the lives of citizens come to be endangered, and every one who walks the streets is exposed to the dreadful disease, hydrophobia, the matter becomes too serious and alarming to think of the value of a dog for a moment.

**NEW POST OFFICE IN GREENE COUNTY.**—A new post office has been established, eight miles west of Monroe, on the road to Galeana, to be called Skinner, Isaac Williams postmaster. Also a new office at Shewey's Mills in the town of Clarno. J. W. Shewey, postmaster.

**A STORY OF TAINTED BLOOD.**—The following extraordinary case occurred in Mississippi under the slave laws of that state:

A planter was afflicted with a loathsome disease. So offensive were his ulcers that he was deserted by his white friends; and, while thus afflicted and forsaken, a girl, whom he owned as a slave, kindly and patiently waited upon him, dressed his ulcers, cleansed his person, and watched over him until he eventually recovered. With gratitude and affection to his benefactor, he took her to Cincinnati, in Ohio, executed to her a deed of manumission, had it recorded, returned to Mississippi, and there married her in legal form. They lived together affectionately, for many years, reared a family of children, and, as he lay upon his death-bed, by will he divided his property between his wife and children. His brothers hearing of his death came forward and demanded the property of the widow and children were injured at the demand. They too were seized, and the validity of that demand was tried before Judge Lankey, of that state, who decided that the whole matter was a fraud upon the law of slavery—that the property belonged to the collateral heirs. His widow was sold by the surviving brothers, the children were bid off at public auction, and both mother and children now toil in chains, or sleep in servile graves.

**POSTAGE NORTH AND SOUTH.**—It appears by a table carefully prepared by Mr. Haven, a congressman from Buffalo, and read by him in a speech against increasing the rates of postage, that thirteen of the slave states do not pay the cost of transportation of the mails, within their borders, while only four free states fall behind, and three of these are the new states of Michigan, Illinois and California, which will in a few years pay back all the surplus expenditures made in their favor. Thirteen free states yield a postal surplus revenue of more than a million-and-a-half dollars, while the thirteen slave states above stated fall short of their postal expenses above three-quarters of a million. New-York gives \$720,497 more than she takes, while chivalrous Virginia takes \$129,762 more than she gives. Free soil Massachusetts yields a net postal revenue of \$223,849, while filibustering South Carolina goes to the treasury a beggar for \$44,164.

**SACRACY OF A RAT.**—An elderly gentleman on the west side gave us the following curious facts which are fully illustrative of the sacracy of the rat species:

On last Saturday evening, as the rain was falling in torrents, deluging the little yard by the house; a large rat was observed to come hurriedly out of a hole by the side of the house, where the water was pouring in, and springing across to an opposite building, for a moment disappeared. Back again came the rat and plunged into the hole, which was fast being filled with water, and in a moment reappeared, bearing in her mouth, a young rat, which she carried to the opposite building. Thus she continued to labor until five of the young had been rescued from a watery grave, and deposited in a place of safety. Watching closely her movements, our friend soon discovered the mother again coming from the wall with one of her young in her mouth, which she dropped down upon the ground, and after looking a moment, again took it up, and trying to wake it, laid it down again. The little one was dead, had been drowned; although the parent rat had done all within her power to save her young, yet one had been drowned! After repeated efforts to bring to life the offspring, she mournfully left the little one, and went to the new home she had prepared for her unfortunate family.—*Young America.*

**A PROBABLE KIDNAPPER.**—When a man is accused of being somebody's chattel, according to the laws "not of the United States," for they know no human chattels; much less those of nature, or of nature's God, but of Virginia, Alabama, or some other barbarian state wherewith we are unhappily connected, there is a prompt mustering and hurrying of all the forces of the Union to throttle the man guilty of having been robbed of his liberty from birth, and force him back into everlasting bondage. But when a man-stealing kidnapper is detected and denounced—one who has stolen a freeman and sold him into everlasting bondage for paltry gain—we see no such alacrity, no such zeal, no such array of force, summoned to consign him to the punishment which the laws even of slaveholding states provide for him. Is this fair?

We learn that Merrill, the alleged kidnapper of Solomon Northrup, a free colored citizen of this state, who was thereby subjected to twelve years of inhuman bondage and suffering as a slave in Louisiana, was arrested on Friday morning near Gloversville in Fulton county, and fully identified by Northrup as the villain who stole and sold him into slavery. We presume there can be little or no doubt of his guilt. Well, does any man suppose that the arm of the federal government will be stretched out to insure his conviction?—that judges, marshals, commissioners, district attorneys, soldiers, &c. will be rallied into superhuman activity in order to insure the execution of justice on this culprit? Who is so green as to suppose it?

**ANTI-NEBRASKA RESOLUTIONS.**—Preamble and resolutions adopted by the Wisconsin Convention of Universalists, at its annual session in Fond du Lac, June 3d and 4th, 1854.

**Whereas.** It is the acknowledged right and privilege, saying nothing of the duty, of any religious body freely to express and publish its opinions on any subject of state or national importance, affecting the moral interests or social welfare of society;—therefore Resolved,

1. That the recent action of the congress of the United States, in the passage of the Nebraska-Kansas Bill, so called, by which the wrong,

the curse, the immorality of human bondage are allowed to spread their blighting influence over a large territory which by solemn compact had been consecrated as we had supposed, forever,

to free people and free institutions, is deserving of the unmitigated condemnation of every individual who loves liberty and hates oppression.

2. That in the spirit of the gospel, which breathes peace on earth and good will to men, and in the exercise of such legitimate means as are within our reach, we will labor earnestly to extirpate the sin of slavery from our country and the world,—conceiving this to be our duty as patriots and philanthropists, but more especially as christians.

3. We reiterate here the sentiments advanced in previous sessions of this body, expressive of our deep devotion to the cause of temperance; and we recommend our friends throughout the state to labor on more earnestly than heretofore to bring about the enactment, through our state legislature, of a law to prohibit the manufacture and sale of intoxicating drinks.

On motion, the preamble and resolutions were unanimously adopted.

The Washington Union affects to be alarmed at the prospective "dissolution" of the whig party. This is a mere "whistle" as it finds itself passing the grave-yard of its own party in Maine, Connecticut, Rhode Island and New Hampshire. It is quite natural that, with so many tomb-stones in its eye, it should discourse of the "dissolution" of something.—*Albany Evening Journal.*

**A NEW ARTICLE OF EXPORT.**—We noticed yesterday, on the departure of the steamer Michigan for Chicago, that her whole upper deck was covered with wash-tubs, pails, &c., shipped by Messrs. J. Day & Bro. They are manufactured at the extensive factory of Mr. Smith, at Menasha, and are becoming very important article of export.—*Green Bay Advocate.*

**EXTRAORDINARY CONVERSTORY CORN.**—Under instructions of the secretary of the treasury, given sonic months since to the mint of the United States, to collect specimens of counterfeited coins in circulation, for the purpose of examination and report; one has lately been received of a very singular character. It purports to be a Mexican dollar, coined at the city of Mexico in 1851. The Union says:

Two pieces have been assayed, and give an average fineness of 776 thousandths, and a consequent value of 914 cents in silver; but, strange to say, the amount of gold contained in them is sufficient to add 12 cents to the value of each, after paying the charge of separating making a net value of 1034 cents; and if to this the usual premium on silver is added, the whole of this counterfeit coin is actually 109 cents!

The quality of the silver in these dollars proves them to be a spurious issue. There is also an irregularity in the letters Mexicanas, which is regarded as a test for throwing them out, as we learn from sources familiar with them in Mexico, where they appear to have had at times a considerable circulation. The silver produced by the Mexican mines is understood to contain gold, but generally too small an amount to defray the expense of parting. In making the coins in question, it would seem that silver more auriferous than usual had fallen into hands capable of the double dishonesty of cheating the public and themselves at the same time.

The Mormons may have chased off United States officers in President Fillmore's time, but the people of Erie, Pa., have chased off United States officers in President Pierce's time. The expulsion of United States officers by an Erie mob, was as great an outrage as the expulsion of United States officers by a Mormon mob.—Besides, the people of Erie are not one-fifth so hard to get at as the Mormons, and we very much doubt whether they would fight half so hard after being got at. Why didn't Pierce punish the Erie rascals for driving away the officers of the United States government with rotten eggs? If he wished to spare the effusion of blood, why didn't he at least order a few thousand United States soldiers to march there, all equipped with baskets of rotten eggs, and thus prepared to fight the Pennsylvanians with their own weapons? Even after a general fight of that kind, Erie could have scarcely been in worse order than she is now.—*Louis. Journal.*

They have started in New York a new paper called the Weekly Leader, edited by Mr. A. P. Boyle and others, who will write what they think over their own names. It is a journal of opinion. Amongst the editorials is the following:

**THE MAINE LAW.**—It is my opinion that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on the road at Horicon, and intend to have the section from Horicon to Waukesha completed and ready for use by the first of October, and Milwaukee road reaches Horicon.

**DOUGLASS WITH HIS FLAIL.**—Senator Douglass has aroused the indignation of the know nothings, without the least provocation or necessity. He seems to be a blundering sort of marplot, without sufficient tact or sense to avoid running his head against a wall, when there is abundant room to go around it. He was invited to address the democracy in Philadelphia, on the fourth, and instead of confining himself to legitimate topics of discussion, what must he do but launch off in a tirade of abuse of the know nothings, whom he denounced unspuriously, as enemies of the constitution and ignorant of the aims of true government. So unpalatable was his language and manner that the audience became excited—several persons expressed their disapprobation of the speaker's remarks; there were cries of "Let him go on in his own way!" "Turn him out!" &c., and when he attempted to engage the attention of the disaffected he failed utterly, and brought his speech to an abrupt close.

According to our information respecting the condition of affairs in Pennsylvania, the whigs did not need any aid from Douglass to render their triumph certain at the October election.

The democratic party is assuredly doomed to ignominious defeat; but it was an ungracious as well as foolish proceeding on the part of the little demagogue, to increase and complicate the embarrassments of his associates, without the least prospect of benefiting himself. Such a course might have been expected of him, however; for he has been swinging his flail with great damage to himself and friends, ever since he undertook to make capital at the south by repealing the Missouri compromise. The concentrated efforts of all the whigs in the country would not have worked so much injury to the democratic party in a twelve-month, as Douglass produced in one-fourth that time. He has turned fire states against the administration, and secured an opposition majority in the next congress; and like the English magistrate, spoken of by Mr. Weller, who never committed a prisoner without first committing himself, he has acted with perfect impartiality, and involved himself in the ruin he has brought upon Pierce, —*Buff. Com. Ad.*

**PROSPECTS OF AN ATTACK ON SEVASTOPOL.**—The following is an extract of a letter from the Black Sea to the London Times:

"Unless the enemy leaves Sebastopol, it is difficult to see what can be done in that quarter except to watch the harbors closely and distract the empire by the destruction of its maritime trade. Every means has been used to draw the Russians from the security of their batteries. First, the fleet approached, leaving behind two of three deckers, which were stationed out of sight of the Russians, but sufficiently new to come to the assistance of the squadron in case of need. It was thought that the appearance of a diminished force would tempt the enemy to a sortie, but the Muscovites remained immovable. Next the fleet lay off, and two scows went in close to the mouth of the harbor, but with no better success. A sailing frigate was next sent, which might inspire a hope of capture with a short race. All these expedients have been equally unavailing, and the Russian fleet is no doubt furnished with explicit instructions not to venture out. An attack on Sebastopol itself is no doubt impracticable, except with the assistance of a land force. The ships must enter singly into the narrow mouth of the harbor, were the fire of 800 pieces of cannon can be directed on each one in turn. Naval officers say that even the smoke caused by so tremendous a fire would be sufficient to make the entrance quite impossible, except to those who knew the harbor well."

**WHAT THE FLEET IS GOING TO DO.**—The London News states that the combined fleets made a junction on the 13th, and that the combined force was 54 sail, armed with 2,726 guns, and manned with 29,150 seamen and marines. The News adds:

"It is said that at the late cabinet council a dispatch from Admiral Sir Charles Napier was discussed, in which he defined his intentions in reference to the operations against Russia in the Baltic. The propositions of the gallant admiral are understood to be of a character quite consonant with the tenor of the most remarkable points in his past career, and great news from the north may be expected; before long, should no unfortunate changes of intention arise. It we had the most exact knowledge of Admiral Napier's plans our patriotic sense of duty would forbid any publication of them, remembering as we do that there are electric wires from London to St. Petersburg, and, unhappily, too many people who—enjoying the privilege and flourishing under the shelter of our constitutional system—would like no better task than giving information or other aid to the Czar. But this we may say, that we have heard enough of the plans in question to justify a confident belief that a great blow will be struck against Russia before long. **CRYSTAL PALACE TO BE SOLD.**—P. T. Barnum yesterday resigned the office of president of the Crystal Palace company. He assigns as his reason for doing so, the too heavy duties imposed upon him.

The resignation was accepted, and John H. White was unanimously elected president pro tempore. A committee was appointed to obtain the services of an efficient superintendent for the season before us, and it was resolved to finally close the exhibition on the 31st of October next. It was further resolved to appoint a committee to dispose of the Crystal Palace, and all of the property of the association, deliverable on, or after the 1st day of November next.—*N. Y. ## RAILROAD STORE!

I WISH to call attention, as I have done before, to the Goods I am receiving now at the Railroad Store, where all the newest fashions, to suit the young and old, the richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing, the price, as all the Ladies know, is from sixpence to a shilling. Five Fine Black Silks from Italy, and colored ones that's rare. Plaid, Godehams and Marcellaines, and Flanders to spare.

And such a lot of Hosley, I know cannot be beat; Gloves a great variety, they are so very neat; just now, when Spring is coming, and every thing looks bright.

For a glove to suit the season, the color should be light.

There are other goods for ladies, of which they ought to know.

That I keep in those blue boxes, and am always pleased to show.

Such as Blonde and Linen Edging, Cotton and Cambric,

Muslin and Cambric Needlework, and Gimp of every hue.

Those Undersewes and Chemises I almost had forgot.

And Ladies' Needwork Collars, so beautifully wrought, with Bishop Lawns and Cambrics, and Muslins fine and neat,

And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "director rays," I've Parasols to sell.

Of every price and color—they please the Ladies well—And Umbrellas cheap for Gents, or so at least they say.

For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,

To puff, or curl, or plait the hair, no better can you find;

And every kind of Buttons for dresses, coats and vests,

To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,

Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;

And for infants' Hats with feathers and ribbons gay and bright,

And little Caps with tassels drab, orange, blue & white.

I have stacks of Linen, of yellow, brown and white, and every other kind, of Summer Goods that's right to make up into coats and pantaloons and vests—As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftener read; And that most may be meant, as often, when least is said, In view of this, I'll close my bill, and here invite you all,

Whenver you come to Janesville, be sure and give me a call.

IRA P. BALLEAU.

J. F. MORSE.

## KIER'S ROCK OIL.

FROM a Well 400 feet deep, Near Pittsburgh.

It is offered to the public as a Natural Medicine of incalculable value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally.

As a local remedy in Paralysis, Piles, Rheumatic Diseases, Loss of Sight, Burns, &c., also, as a valuable Internal Remedy for Piles, Ague, Scrofula, Coughs, Diarrhea, Erysipela, old Sores, Erupsions of the Skin, Fevers, Ulcers, Worms, Bladder and Kidneys, Rheumatism, Pains &c., &c., it invites the investigating Physician, as well as the suffering patient, to be made acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only increase but hold out.

Testimony to its great merit is constantly accumulating in the hands of the proprietor, by certificates, letters, and innumerable testimonials.

DOCTORS THE WHOLE MAN—flesh and Blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Nephritis*. When you have it in the family you will not be without it.

As far as the world is of Patent Medicines, it is thought to be the best in the whole range of NATURE—to make room for *HUMAN INNOCENCE*. Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE AGUE AMONG US?—A few spoonfuls every three hours in the absence of the fever will cure you of Ague or Diarrhea.

Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done in curing the disease, and saving the life of the lower part of the back with it.

Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

# The Daily Gazette.

TUESDAY MORNING, JULY 17, 1854.

OUR TRI-WEEKLY.—We commence to-day the publication of a tri-weekly edition of the Gazette, and send out copies to such of our friends as we trust will interest themselves in getting up a list of subscribers. May we not ask at least that they will show the copies sent them to their friends. Those who enjoy a tri-weekly or semi-weekly mail we shall be able to furnish with later news than they can obtain from any other source, and shall endeavor to make the paper valuable to them in other departments besides that of news. The terms will be \$3 a year, payable in advance. Friends, let us hear from you at once that we may be able to calculate upon the preparations necessary to meet your wants.

It is a painful duty to be obliged so often to find fault with the weather, but really the amount of caloric mixed in now-a-days is altogether out of proportion, besides being insupportable. "Fahrenheit" ranges from 95 to 100 in the shade, and scarcely a breath of air is stirring. We protest against it—can't stand it. If any delinquency is noticed by our readers in to-day's paper, we needn't be blamed—charge it to the weather. Writing is out of the question, and as for work, one of our journeymen "pottered" in the early part of the day yesterday and the "devil" who took the vacant case, in a short time went to find his older associate and forgot to come back. Even old Jabs has to keep his shining pate under the shade of the awning; these days. Can't double headed Brown relieve us with that "cool thing" that took place the other day on the ears?

Look Out!—We are informed that a mad dog was seen in our streets on Sunday, and that he was soon to bite another dog. The common council have been heretofore urged to take some precautionary measures in reference to this matter. If this report be substantiated as we doubt not it can be, action should not be delayed upon it another day. It is certainly paying dearly enough for the trifling service dogs may render their masters, that the whole town should be annoyed by their nightly howlings, but when the lives of citizens come to be endangered, and every one who walks the streets is exposed to the dreadful disease, hydrophobia, the matter becomes too serious and alarming to think of the value of a dog for a moment.

**NEW POST OFFICE IN GREENE COUNTY.**—A new post office has been established, eight miles west of Monroe, on the road to Galena, to be called Skinner, Isaac Williams postmaster. Also a new office at Shewry's Mills in the town of Clarno. J. W. Shewry, postmaster.

**A STORY OF TAINTED BLOOD.**—The following extraordinary case occurred in Mississippi under the slave laws of that state:

A planter was afflicted with a loathsome disease. So offensive were his ulcers that he was deserted by his white friends; and, while thus afflicted and forsaken, a girl, whom he owned as a slave, kindly and patiently waited upon him, dressed his ulcers, cleansed his person, and watched over him until he eventually recovered. With gratitude and affection to his benefactor, he took her to Cincinnati, in Ohio, executed to her a deed of manumission, had it recorded, returned to Mississippi, and there married her in legal form. They lived together affectionately, for many years, reared a family of children, and, as he lay upon his death-bed, by will he divided his property between his wife and children. His brothers hearing of his death, came forward and demanded the property. The widow and children were indicted at the demand. They too were tried, and the validity of that decree and will was tried before Judge Markey, of that state, who decided that the whole matter was a fraud upon the law of slavery—that the property belonged to the collateral heirs. His widow was sold by the surviving brothers, the children were bid off at public auction, and both mother and children now lie in chains, or sleep in servile graves.

**POSTAGE NORTH AND SOUTH.**—It appears by a table carefully prepared by Mr. Haven, congressman from Buffalo, and read by him in a speech against increasing the rates of postage, that thirteen of the slave states do not pay the cost of transportation of the mails within their borders, while only four free states fall behind, and three of these are the new states of Michigan, Illinois and California, which will in a few years pay back all the surplus expenditures made in their favor. Thirteen free states yield a postal surplus revenue of more than a million-and-a-half dollars, while the thirteen slave states above stated fall short of their postal expenses above three-quarters of a million. New York gives \$129,497 more than she takes, while Virginia gives \$129,782 more than she gives. Free soil Massachusetts yields a net postal revenue of \$223,819, while filibustering South Carolina goes to the treasury a beggar for \$4,184.

**SAGACITY OF A RAT.**—An elderly gentleman on the west side gave us the following curious facts which are fully illustrative of the sagacity of the rat species:

On last Saturday evening, as the rain was falling in torrents, deluging the little yard by the house; a large rat was observed to come hurriedly out of a hole by the side of the house, where the water was pouring in, and springing across to an opposite building, for a moment disappeared. Back again came the rat and plunged into the hole, which was fast being filled with water, and in a moment reappeared, bearing in her mouth, a young rat, which she carried to the opposite building. Thus she continued to labor until five of the young had been rescued from a watery grave, and deposited in a place of safety. Watching closely her movements, our friend soon discovered the mother again coming from the wall with one of her young in her mouth, which she dropped down upon the ground, and after looking a moment, again took it up, and trying to wake it, laid it down again. The little one was dead, it had been drowned; but although the parent rat had done all within her power to save her young, yet one had been drowned. After repeated efforts to bring to life her offspring, she mournfully left the little one, and went to the new home she had prepared for her unfortunate mate.—*Young America.*

**A PROBABLE KIDNAPPER.**—When a man is accused of being somebody's chattel, according to the laws of the United States, for they know no human chattels; much less those of nature, or of nature's God, but of Virginia, Alabama, or some other barbarian state wherewith we are unhappily connected, there is a prompt muster and hurrying of all the forces of the Union to throttle the man guilty of having been robbed of his liberty from birth, and force him back into everlasting bondage. But when a man-stealing kidnapper is detected and denounced—one who has stolen a freeman and sold him into everlasting bondage for paltry gain—we see no such acracy, no such zeal, no such kind of force, summoned to consign him to the punishment which the laws even of slaveholding states provide for him. Is this fair?

We learn that Merrill, the alleged kidnapper of Solomon Northrup, a free colored citizen of this state, who was thereby subjected to twelve years of inhuman bondage and suffering as a slave in Louisiana, was arrested on Friday morning near Gloversville in Fulton county, and similarly identified by Northrup as the villain who stole and sold him into slavery. We presume there can be little or no doubt of his guilt. Well: does any man suppose that the arm of the federal government will be stretched out to insure his conviction?—that judges, marshals, commissioners, district attorneys, soldiers, &c. will be rallied into superhuman activity in order to insure the execution of justice on this culprit? Who is so green as to suppose it?—*N. Y. Tribune.*

**ANTI-NEBRASKA RESOLUTIONS.**—Preamble and resolutions adopted by the Wisconsin Convention of Universalists, at its annual session in Fond du Lac, June 3d and 4th, 1854.

Whereas it is the acknowledged right and privilege, saying nothing of the *-duty*, of any religious body freely to express and publish its opinions on any subject of state or national importance, affecting the moral interests or social welfare of society,—therefore Resolved,

That the recent action of the congress of the United States, in the passage of the Nebraska Bill, so called, by which the wrong, the curse, the inhumanity of human bondage are allowed to spread their blighting influence over a large territory which by solemn compact had been consecrated as we had supposed, forever, to free people and free institutions, is deserving of the unmitigated condemnation of every individual who loves liberty and hates oppression.

2. That in the spirit of the gospel, which breathes peace on earth and good will to men, and in the exercise of such legitimate means as are within our reach, we will labor earnestly to extricate the sin of slavery from our country and the world,—conveying this to be our duty as patriots and philanthropists, but more especially as christians.

3. We reiterate here the sentiments advanced in previous sessions of this body, expressive of our deep devotion to the cause of temperance; and we recommend our friends throughout the state to labor more earnestly than heretofore to bring about the enactment, through our state legislature, of a law to prohibit the manufacture and sale of intoxicating drinks.

On motion, the preamble and resolutions were unanimously adopted.

The Washington Union affects to be alarmed at the prospective "dissolution" of the whig party. This is a mere "whistle" as it finds itself passing the grave-yard of its own party in Maine, Connecticut, Rhode Island and New Hampshire. It is quite natural that, with so many tomb-stones in its eye, it should discourse of the "dissolution" of something.—*Albany Evening Journal.*

**A NEW ARTICLE OF EXPORT.**—We noticed yesterday, on the departure of the steamer Michigan for Chicago, that her whole upper deck was covered with wash-tubs, pails, &c. They are manufactured at the extensive factory of Mr. Smith, at Menasha, and are becoming very important article of export.—*Green Bay Advocate.*

**EXTRAORDINARY COINCIDENT COIN.**—Under instructions of the secretary of the treasury, given some months since to the mint of the United States, to collect specimens of counterfeit coins in circulation, for the purpose of examination, and report, one has lately been received of a very singular character. It purports to be a Mexican dollar, coined at the city of Mexico in 1851. The Union says:

Two pieces have been assayed, and give an average fineness of 776 thousandths, and a consequent value of 914 cents in silver; but, strange to say, the amount of gold contained in them is sufficient to add 12 cents to the value of each, after paying the charge of separating, making a net value of 1034 cents; and if to this the usual premium on silver is added, the whole of this counterfeit coin is actually 109 cents!

The quality of the silver in these dollars proves them to be a spurious issue. There is also an irregularity in the letters Mexicana, which is regarded as a test for throwing them out, as we learn from a source familiar with them in Mexico, where they appear to have had at times a considerable circulation. The silver produced by the Mexican mints is understood to contain gold, but generally too small an amount to defray the expense of parting. In making the coins in question, it would seem that silver more numerous than usual had fallen into hands capable of the double dishonesty of cheating the public and themselves at the same time.

The Mormons may have chased off United States officers in President Fillmore's time, but the people of Erie, Pa., have chased off United States officers in President Pierce's time. The expulsion of United States officers by an Erie mob, was as great an outrage as the expulsion of United States officers by a Mormon mob. Besides, the people of Erie are not one-fifth part so hard to get at as the Mormons, and we very much doubt whether they would fight half so hard after being got at. Why didn't Pierce punish the Erie rascals for driving away the officers of the United States government with rotten eggs? If he wished to spare the effusion of blood, why didn't he at least order a few thousand United States soldiers to march there, all equipped with baskets of rotten eggs, and thus prepared to fight the Pennsylvanians with their own weapons? Even after a general fight of that kind, Erie could have scarcely been in worse order than she is now.—*Louisville Journal.*

They have started in New York a new paper called the Weekly Leader, edited by Mr. A. P. Boyle and others, who will write what they think over their own names. It is a journal of opinions. Amongst the editorials is the following, which for its brevity we very much admire:

This MAINE LAW.—It is my opinion, that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Watertown completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon.

**DOUGLASS WITH HIS FLAIL.**—Senator Douglass has aroused the indignation of the know-nothings, without the least provocation or necessity. He seems to be a blundering sort of marplot, without sufficient tact or sense to avoid running his head against a wall, when there is abundant room to go around it. He was invited to address the democracy in Philadelphia, on the fourth, and instead of confining himself to legitimate topics of discussion, what must he do but launch off in a tirade of abuse of the know-nothings, whom he denounced unparingly, as enemies of the constitution and ignorant of the aims of true government. So unpardonable was his language and manner that the audience became excited—several persons expressed their disapprobation of the speaker's remarks; there were cries of "Let him go on in his own way!" "Turn him out!" &c., and when he attempted to engage the attention of the disaffected he failed utterly, and brought his speech to an abrupt close. According to our information respecting the condition of affairs in Pennsylvania, the whigs did not need any aid from Douglass to render their triumph certain at the October election. The democratic party is assuredly foredoomed to ignominious defeat; but it was an ungracious as well as foolish proceeding on the part of the little demagogue, to increase and complicate the embarrassments of his associates, without the least prospect of benefiting himself. Such a course might have been expected of him, however; for he has been swinging his tail with great damage to himself and friends, ever since he undertook to make capital in the south by repeating the Missouri compromise. The concentrated efforts of all the whigs in the country would not have worked so much injury to the democratic party in a twelve-month, as Douglass produced in one-fourth that time. He has turned free states against the administration, and secured an opposition majority in the next congress; and like the English magistrate, spoken of by Mr. Walker, who never committed a prisoner without first committing himself, he has acted with perfect impartiality, and involved himself in the ruin he brought upon Pierce.

**PROSPECTS OF AN ATTACK ON SEVASTOPOL.**—The following is an extract of a letter from the Black Sea to the London Times:

"Unless the enemy leaves Sebastopol, it is difficult to see what can be done in that quarter except to watch the harbors closely and distract the empire by the destruction of its maritime trade. Every means has been used to draw the Russians from the security of their batteries. First, the fleet approached, leaving behind two of three deckers, which were stationed out of sight of the Russians, but sufficiently near to come to the assistance of the squadron in case of need. It was thought that the appearance of a diminished force would tempt the enemy to a sortie, but the Muscovites remained immovable."

2. That in the spirit of the gospel, which breathes peace on earth and good will to men, and in the exercise of such legitimate means as are within our reach, we will labor earnestly to extricate the sin of slavery from our country and the world,—conveying this to be our duty as patriots and philanthropists, but more especially as christians.

3. We reiterate here the sentiments advanced in previous sessions of this body, expressive of our deep devotion to the cause of temperance; and we recommend our friends throughout the state to labor more earnestly than heretofore to bring about the enactment, through our state legislature, of a law to prohibit the manufacture and sale of intoxicating drinks.

On motion, the preamble and resolutions were unanimously adopted.

The Washington Union affects to be alarmed at the prospective "dissolution" of the whig party. It is quite natural that, with so many tomb-stones in its eye, it should discourse of the "dissolution" of something.—*Albany Evening Journal.*

**WHAT THE FLEET IS GOING TO DO.**—The London News states that the combined fleets made a junction on the 13th, and that the combined force was 54 sail, armed with 2,720 guns, and manned with 20,150 seamen and marines. The News adds:

"It is said that at the late cabinet council a dispatch from Admiral Sir Charles Napier was discussed, in which he defined his intentions in reference to the operations against Russia in the Baltic. The propositions of the gallant admiral are understood to be of a character quite consonant with the tenor of the most remarkable points in his past career, and great news from the north may be expected before long, notwithstanding changes of intention arise. If we had the most exact knowledge of Admiral Napier's plans our patriotic sense of duty would forbid any publication of them, remembering as we do that there are electric wires from London to St. Petersburg, and, unhappily, too many people who—enjoying the privileges and flourishing under the shelter of our constitutional system—would like no better task than giving information or other aid to the Czar. But this we may say, that we have heard enough of the plans in question to justify a confident belief that a great blow will be struck against Russia, before long. The Czar's frontier is long and open, and he now needs to watch its whole line. But no need to惶惶不安 from the coming shock."

**CRYSTAL PALACE TO BE SOLD.**—P. T. Barnum yesterday resigned the office of president of the Crystal Palace company. He assigns as his reason for doing so, the too heavy duties imposed upon him.

**OAK HILL CEMETERY.**—A special meeting of the Trustees of this Association will be held at the bank of H. B. Birner, FRIDAY EVENING, July 21st, at eight o'clock, for the transaction of important business. A prompt attendance is requested. WM. MCLOUGHLEN, Pres't. JAMES H. COOK, Sec'y.

# THE DAILY GAZETTE.

**THE MARKETS.**—There is so little doing in the grain market that we have not thought it of much use to our readers to give quotations very regularly. As soon as transactions again begin to be very considerable, we shall resume our daily report.

The commendation bestowed upon Gov. Matteson, of Illinois, for refusing to pardon the men engaged in the murder of Mr. Story at La Salle must be retracted. He has commuted their sentence to imprisonment for life.

Mr. Williams, the removed postmaster at Watertown, has been re-instated.

Some idea of the importance of the perfumery made in France may be formed from the fact, that one manufacturer employs each year 5,000 kilogrammes of orange peel, 37,000 kilogrammes acacia flowers, 27,000 kilogrammes violets, 8,000 kilogrammes lilac flowers and about a similar quantity mint, thyme, lavender, and other odorous plants.

The seven million check, in settlement of the Gadsden treaty, was paid at the sub-treasury, in this city, this morning. The gold was put in small white bags, placed into boxes on a cart, and carried to the respective banks in which it was to be deposited.—*N. Y. Eve. Post*, 11th inst.

**NEW WHEAT.**—We learn that some of the winter wheat in this vicinity has been harvested, and samples have been sent by dealers. The crop is very heavy, the berry plump and fine. The winter wheat is out of danger, and there is no fear for the spring crop.—*Wisconsinian*.

**THE MILLS.**—Little is doing at the mills just now. One or two have stopped, and the others grind a few hundred bushels a day. They are all undergoing a thorough repair; for the fall work, and busies will be seen again in about a month, when the new crop begins to pour in its abundance.—*Wisconsinian*.

**NARROW ESCAPE.**—During the thunder shower on Friday afternoon, in Detroit, the house of Mr. Pierce, on Woodward Avenue, was slightly damaged by lightning. One of Mr. Pierce's children was sitting by an open window at the time, reading a newspaper, which the lightning set on fire, without in the least injuring the child.—*Chicago Press*.

**A SIGN OF PROGRESS.**—A large quantity of lumber is being brought into this city from the Wolf river piney, but the demand for it is so great that no one apprehends that this market will be too heavily stocked.—*Fond du Lac Union*.

AGAIN & AGAIN

THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud trumpet o'er land and o'er sea," WHEELOCK & STRONGHORN, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial era.

We are agents for the sale of Durfee & Forsyth's celebrated Fire Proof Safes and Platform and Counter Safes, and also for the safe of Yale's Magic Safe, Safe and Store Door Locks.

D. F. PIXLEY, F. A. KIMBALL.

WHOLESALE AND RETAIL DRUG BUSINESS

for three years, we are supposed to be posted on all matters pertaining to the interests of the trade and our customers.

Our stock in the beginning was to sell.

Pure Goods at Fair Prices,

And having during a series of years witnessed the rapid increase of men who endeavored to compete with us, we have endeavored to provide the public with a handsome advertisement was apparently their highest ambition, but more than ever convinced us that OUR TRADE is the only one that can win.

In view of these facts,

OUR SPRING PURCHASE

has been unusually heavy, in which nothing that enters the most remote degree into our business has been omitted.

DRUGS, FOREIGN & DOMESTIC, GUMS, POWDERED ARTICLES, HERBS & EXTRACTS, including every article of the most pure and choice kind.

"Physicians will take the time to look through

our Stock, and examine minutely the quality of our Medicines and their preparations, they will not find any article that will fail them, but goods that can at all times be relied upon.

Family Preparations and Genuine Patent Medicines.

In this department our stock and assortment is unusually large, and we have a Sole Agency for all Patent Medicines of any value, and any article sold in the West can be found at our Store.

FAMILY MEDICINES AND PRESCRIPTIONS compounded with great care, and put up at all hours of the day and night.

Paints Oils, Glass, Varnishes, &c.

Of these leading articles we have an almost unlimited supply.

Buying of first hands, for Net Cash, enables us to offer great inducements to Merchants and others to buy directly of us; and having worked into a

Heavy Wholesale Trade.

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to Double the capacity of his Store Rooms!

Having purchased this spring, for this market, to be sold this summer,

\$39,000.00 Worth of Goods!

But who can expect to read in the brief space of one line all the articles that the

BOSTON STORE CONTAINS.

Indeed, history must fail to give the searcher of knowledge any accurate idea of its immense

STOCK OF SUMMER GOODS,

His infinite selection of Fancy Dress Goods!

He has over

10,000 Yards of Silk Bareges,

of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,

FROM THE ONE THOUSAND PIECES,

Of all patterns and ranging in price from SIX CENTS

Per Yard to Twenty-Eight Cents, such dresses as will add to their exquisite beauty; though it may as a general rule be difficult to add to that beauty as it is to add to good gold, pearl, or diamond ornaments.

It must be inferred that we offer only these and the many other articles for outer apparel, such as Chamois and Foulard Silks, but all manner of

COTTON, GRASS & LINEN GOODS

are not found in auction rooms and other places where forced sales are made to raise money for the makers, for their reputations always commands a higher price than the articles of their own terms. They are all for sale at public auction, and will be sold by mail free of postage.

Violins, Guitars, Tambourines, Banjos, Accordion, Flutes, Fife, Rattling and other Violin Strings, Guitar and Bass Violin Strings of the best quality. Violin Boxes and parts.

## RAILROAD STORE!

I WISH to call attention, as I have done before, to the goods I am receiving now at the Railroad Store, where all the newest fashions, to suit the young and old, the richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show you at the lowest price, as all the fadists know, is from shapen to a shilling. Five Black Silks from Italy, and colored ones that's here. Plaid, Gingham and Marcelline, and Florence to spare.

And such a lot of Hosiery. I know cannot be beat, and Gloves a great variety, they are so very neat; just now, when Spring is coming, and everything looks bright.

There are other goods for ladies, of which they ought to know. That I keep in these fine boxes, and always pleased to show. Such as Blonde and Linen Edging, Cotton and Catarie, Muslin and Cambric Needlework, and Gimp of every hue.

These Understoves and Chiniseets I almost had for free. And Ladies' Needlework Collars, so beautifully wrought, with Rich Lawns and Cambrics, and Muslin fine and neat.

And Laces to make old ladies' caps and trim them off complete.

And to parry Sol's "director rays," I've Parasols to

of every price and color—they please the ladies well. And Umbrellas cheap for Gents, or so at least they say. For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind. To pick out, or plait the hair, no better can you find.

And every kind of Buttons for dresses, coats and vests. To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats, Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;

And for infants, Hats with feathers and ribbons gay and bright, And little Caps with tassels blue, orange, blue and white.

I have stocks of Linen, of yellow, brown and white, and every other kind, of Summer Goods that's right.

To make up into coats and pantaloons and vests—As large a stock as any, that ever was brought West. They say long advertisements, are not the oftener read;

And that most may be meant: as often, when last is said, in view of this, I'll close my bill, and here invite you all,

Whenever you come to Janesville, be sure and give me a call.

IRA P. DALLEAU.

It is a different thing from the old Kentucky or American Oil, as that is called ALDAY OIL, and is a real remedy. Paralysis, Rheumatism, Inflammation, Loss of Sight, Burns, &c., also, as a valuable Internal Remedy for Piles, Ague, Scrofula, Coughs, Diarrhea, Enteritis, old Sores, Ruptures, of the Skin, Febrile Diseases, Worms, Bladder and Kidneys, Bronchitis, Palus &c., &c. It invigorates the inveterate Physician, as well as the suffering patient, to begin recuperation with its merits.

IT DOCTORS THE WHOLE MAN—flesh and blood

—skin and bones—from head to foot—how it acts upon the system, especially of children, we cannot tell to you. It is both curative and restorative.

It is Alternative—and amid your Regula-

TION, a leading principle in it is *Mystic*. When you once have it in the family you will not be without it.

For the world is of Patent Medicines—it is the right

time to suppress this, the work of NATURE—to make room for *Human Inventions*. Price 50 cents per bottle, it can be had of wholesalers in the large cities and towns.

HAVE WE ACTED ALONG, USING A few spoonfuls every three hours in the absence of the fever will cure you of Ague or Diarrhea.

Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLACTA SUPERTI, and good will be done.

**THE MARKETS.**—There is so little doing in the grain market that we have not thought it of much use to our readers to give quotations very regularly. As soon as transactions again begin to be very considerable, we shall resume our daily report.

The commendation bestowed upon Gov. Matteson, of Illinois, for refusing to pardon the men engaged in the murder of Mr. Story at La Salle must be retracted. He has committed their sentence to imprisonment for life.

Mr. Williams, the removed postmaster at Watertown, has been re-instated.

Some idea of the importance of the perfume made in France may be formed from the fact, that one manufacturer employs each year 6,000 kilogrammes of orange peel, 37,000 kilograms acacia flowers, 27,000 kilograms violets, 8,000 kilograms lilac flowers and about a similar quantity mint, thyme, lavender, and other odorous plants.

The seven-million check, in settlement of the Gadson treaty, was paid at the sub-treasury, in this city, this morning. The gold was put in small white bags, placed into boxes on a cart, and carried to the respective banks in which it was to be deposited.—*N. Y. Eve. Post*, 11th inst.

**NEW WHEAT.**—We learn that some of the winter wheat in this vicinity has been harvested, and samples have been sent by dealers. The crop is very heavy, the berry plump and fine. The winter wheat is out of danger, and there is no fear for the spring crop.—*Wisconsin*.

**THE MILLS.**—Little is doing at the mills just now. One or two have stopped, and the others grind a few hundred bushels a day. They are all undergoing a thorough repair, for the fall work, and busy times will be seen again in about a month, when the new crop begins to pour in its abundance.—*Wisconsin*.

**NARROW ESCAPE.**—During the thunder shower on Friday afternoon, in Detroit, the house of Mr. Pierce, on Woodward Avenue, was slightly damaged by lightning. One of Mr. Pierce's children was sitting by an open window at the time, reading a newspaper, which the lightning set on fire, without in the least injuring the child.—*Chicago Press*.

**A SIGN OF PROGRESS.**—A large quantity of lumber is being brought into this city from the Wolf river piney, but the demand for it is so great that no one apprehends that this market will be too heavily stocked.—*Fond du Lac Union*.

**SEMI-ANNUAL REPORT OF THE BADGER STATE BANK,**

A Banking Association organized under an act of the Legislature of the State of Wisconsin, entitled "An Act to Establish the Badger State Bank," approved April 14, 1852, making a statement of the following items on the morning of the first Monday of July, in the year 1854, before the transaction of any business on that day.

**STATE OF WISCONSIN, &c., as Rock County.**

With Mr. Bell, President, and Edward L. Dimock, cashier of the aforementioned bank, being severally sworn, do depose and say that they are respectively the president and cashier of said bank, and that the foregoing is in all respects a true and correct statement of the condition of said bank, on the first Monday in July, 1854, before the transaction of any business of said bank on the morning of that day, according to the best of their several and respective knowledge and belief; and that the place where the business of discount and deposit of said bank is carried on is Janesville, in the said county of Rock.

WILLIAM J. BELL, President.

EDWARD L. DIMOCK, Cashier.

Subscribed and sworn to by both the defendants, before me, this 6th day of July, 1854.

# The Daily Gazette.

TUESDAY MORNING, JULY 17, 1851.

**OUR TRI-WEEKLY.**—We commence to-day the publication of a tri-weekly edition of the Gazette, and send out copies to such of our friends as we trust will interest themselves in getting up a list of subscribers. May we not ask at least that they will show the copies sent to their friends. Those who enjoy a tri-weekly or semi-weekly mail we shall be able to furnish with later news than they can obtain from any other source, and shall endeavor to make the paper valuable to them in other departments besides that of news. The terms will be \$3 a year, payable in advance. Friends, let us hear from you at once that we may be able to calculate upon the preparations necessary to meet your wants.

It is a painful duty to be obliged so often to find fault with the weather, but really the amount of *caloric* mixed in now-a-days is altogether out of proportion, besides being insipidable. "Fahrenheit" ranges from 95 to 100 in the shade, and scarcely a breath of air is stirring. We protest against it—can't stand it. If any delinquency is noticed by our readers in to-day's paper, we needn't be blamed—charge it to the weather. Writing is out of the question, and as for work, one of our journeymen "pettered" in the early part of the day yesterday and the "devil" who took the vacant case, in a short time went to find his older associate and forgot to come back. Even old Juba has to keep his shining pate under the shade of the awnings these days. Can't double headed Brown relieve us with that "cool thing" that took place the other day on the cars?

**LOOK OUT!**—We are informed that a mad dog was seen in our streets on Sunday, and that he was seen to bite another dog. The common council have been heretofore urged to take some precautionary measures in reference to this matter. If this report be substantiated as we doubt not it can be, action should not be delayed upon it another day. It is certainly paying dearly enough for the trifling service dogs may render their masters, that the whole town should be annoyed by their nightly howlings, but when the lives of citizens come to be endangered, and every one who walks the streets is exposed to the dreadful disease, hydrophobia, the master becomes too serious and alarming to think of the value of a dog for a moment.

**NEW POST OFFICE IN GREENE COUNTY.**—A new post office has been established, eight miles west of Monroe, on the road to Galena, to be called Skinner, Isaac Williams postmaster. Also a new office at Shewey's Mills in the town of Clarno. J. W. Shewey, postmaster.

**A STORY OF TAINTED BLOOD.**—The following extraordinary case occurred in Mississippi under the slave laws of that state:

A planter was afflicted with a loathsome disease. So offensive were his ulcers that he was deserted by his white friends; and, while thus afflicted and forsaken, a girl, whom he owned as a slave, kindly and patiently waited upon him, dressed his ulcers, cleansed his person, and watched over him until he eventually recovered. With gratitude and affection to his benefactor, he took her to Cincinnati, in Ohio, executed to her a deed of manumission, and had it recorded, returned to Mississippi, and there married her in legal form. They lived together affectionately, for many years, reared a family of children, and, as he lay upon his death-bed, by will he divided his property between his wife and children. His brothers hearing of his death, came forward and demanded the property—the widow and children were indignant at the demand. They took ~~the~~ and will was tried before Judge Shockey, of that state, who decided that the whole matter was a fraud upon the law of slavery—that the property belonged to the collateral heirs. His widow was sold by the surviving brothers, the children were bid off at public auction, and both mother and children now toil in chains, or sleep in servile graves.

**POSTAGE NORTH AND SOUTH.**—It appears by a table carefully prepared by Mr. Haven, a congressman from Buffalo, and read by him in a speech against increasing the rates of postage, that thirteen of the slave states do not pay the cost of transportation of the mails, within their borders, while only four free states fall behind, and three of these are the new states of Michigan, Illinois and California, which will in a few years pay back all the surplus expenditures made in their favor. Thirteen free states yield a postal surplus revenue of more than a million-and-a-half dollars, while the thirteen slave states above stated fall short of their postal expenses above three-quarters of a million. New-York gives \$720,497 more than she takes, while chivalrous Virginia takes \$129,762 more than she gives. Free soil Massachusetts yields a net postal revenue of \$228,849, while filibustering South Carolina goes to the treasury a beggar for \$44,184.

**SACRACY OF A RAT.**—An elderly gentleman on the west side gave us the following curious facts which are fully illustrative of the sagacity of the rat species:

On last Saturday evening, as the rain was falling in torrents, deluging the little yard by the house; a large rat was observed to come hurriedly out of a hole by the side of the house, where the water was pouring in, and springing across to an opposite building, for a moment disappeared. Back again came the rat and plunged into the hole, which was fast being filled with water, and in a moment reappeared, bearing in her mouth a young rat, which she carried to the opposite building. Thus she continued to labor until five of the young had been rescued from a watery grave, and deposited in a place of safety. Watching closely, her movements, our friend soon discovered the mother again coming from the wall with one of her young in her mouth, which she dropped down upon the ground, and after looking a moment, again took it up, and trying to wake it, laid it down again. The little one was dead, it had been drowned; although the parent rat had done all within her power to save her young, and for its brevity we very much admire:

**THE MAINE LAW.**—It is my opinion, that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Wabash completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon. —*Young America.*

**A PROBABLE KIDNAPPER.**—When a man is accused of being somebody's chattel, according to the laws of the United States, for they know no human chattels; much less those of nature, or of nature's God, but of Virginia, Alabama, or some other barbarian state wherewith we are unhappily connected, there is a prompt mustering and hurrying of all the forces of the Union to throttle the man guilty of having been robbed of his liberty from birth, and force him back into everlasting bondage. But when a man-stealing kidnapper is detected and denounced—one who has stolen a freeman and sold him into everlasting bondage for paltry gains—we see no such alacrity, no such zeal, no such array of force, summoned to consign him to the punishment which the laws even of slaveholding states provide for him. Is this fair?

We learn that Merrill, the alleged kidnapper of Solomon Northup, a free colored citizen of this state, who was thereby subjected to twelve years of inhuman bondage and suffering as a slave in Louisiana, was arrested on Friday morning near Cloversville in Fulton county, and fully identified by Northup as the villain who stole and sold him into slavery. We presume there can be little or no doubt of his guilt. Well! does any man suppose that the arm of the federal government will be stretched out to insure his conviction?—that judges, marshals, commissioners, district attorneys, soldiers, &c. will be rallied into superhuman activity in order to insure the execution of justice on this culprit? Who is so green as to suppose it?—*N. Y. Tribune.*

**ANTI-NEBRASKA RESOLUTIONS.**—Preamble and resolutions adopted by the Wisconsin Convention of Universalists, at its annual session in Fond du Lac, June 3d and 4th, 1851.

Whereas, It is the acknowledged right and privilege, saying nothing of the *-duty*, of any religious body freely to express and publish its opinions on any subject of state or national importance, affecting the moral interests or social welfare of society;—therefore Resolved,

1. That the recent action of the congress of the United States, in the passage of the Nebraska-Kansas Bill, as called, by which the wrong,

the curse, the immorality of human bondage are allowed to spread their blighting influence over a large territory which by solemn compact had been consecrated as we had supposed, forever,

to free people and free institutions, is deserving of the unmitigated condemnation of every individual who loves liberty and hates oppression.

2. That in the spirit of the gospel, which breathes peace on earth and good will to men, and in the exercise of such legitimate means as are within our reach, we will labor earnestly to extricate the sin of slavery from our country and the world,—conceiving this to be our duty as patriots and philanthropists, but more especially as christians.

3. We reiterate here the sentiments advanced in previous sessions of this body, expressive of our deep devotion to the cause of temperance; and we recommend our friends throughout the state to labor on more earnestly than heretofore to bring about the enactment, through our state legislature, of a law to prohibit the manufacture and sale of intoxicating drinks.

On motion, the preamble and resolutions were unanimously adopted.

The Washington Union affects to be alarmed at the prospective "dissolution of the whig party." This is a mere "whistle" as it finds itself passing the graveyard of its own party in Mathe, Connecticut, Rhode Island and New Hampshire. It is quite natural that, with so many tombstones in its eye, it should discourse of the "dissolution" of something.—*Albany Evening Journal.*

**A NEW ARTICLE OF EXPORT.**—We noticed yesterday, of the departure of the steamer Michigan for Chicago, that her whole upper deck was covered with wash-tubs, pails, &c. shipped by Messrs. J. Day & Bro. They are manufactured at the extensive factory of Mr. Smith, at Menasha, and are becoming very important article of export.—*Green Bay Advocate.*

**EXTRAORDINARY COIN-FRAUD COIN.**—Under instructions of the secretary of the treasury, some months since to the mint of the United States, to collect specimens of counterfeit coins in circulation, for the purpose of examination, and report; one has lately been received of a very singular character. It purports to be a Mexican dollar, coined at the city of Mexico in 1851. The Union says:

Two pieces have been assayed, and give an average fineness of 778 thousandths, and a consequent value of 91½ cents in silver; but, strange to say, the amount of gold contained in them is sufficient to add 12 cents to the value of each, after paying the charge of separating, making a net value of 103½ cents; and if to this the usual premium on silver is added, the whole of this counterfeit coin is actually 109 cents!

The quality of the silver in these dollars proves them to be a spurious issue. There is also an irregularity in the letters Mexicana, which is regarded as a test for throwing them out, as we learn from a source familiar with them in Mexico, where they appear to have had at times a considerable circulation.

**CRYSTAL PALACE TO BE SOLD.**—P. T. Barnum yesterday resigned the office of president of the Crystal Palace company. He assigns as his reason for doing so, the too heavy debts imposed upon him.

The resignation was accepted, and John H. White was unanimously elected president *pro tem.* A committee was appointed to obtain the services of an efficient superintendent for the season before us, and it was resolved to finally close the exhibition on the 31st of October next.

It was further resolved to appoint a committee to dispose of the Crystal Palace, and all the property of the association, deliverable on, or after the 1st day of November next.—*N. Y. Evening Post*, 11th inst.

**NEWPORT AND MENASHA RAILROAD.**—A meeting of the stockholders of the Newport and Menasha railroad company, was held pursuant to notice at Monticello, on the 8th inst., at which James D. Doty, Wm. A. Barstow, Edward J. Norris, Ezra Wheeler, E. B. Kelsey, Walter James and W. H. Gleason were elected directors.

The board was organized by the election of James D. Doty, president; and E. B. Kelsey, secretary and treasurer, and Walter James, engineer. The line of this road passes along the valley of Fox river and Menasha; connecting the villages on the banks of the river at the foot of the Dells. The country is well settled, and the villages which it connects are thriving towns.—*Wisconsin.*

They have started in New York a new paper called the Weekly Leader, edited by Mr. A. P. Boyle and others, who will write what they think over their own names. It is a journal of opinion. Amongst the editorials in the following, which for its brevity we very much admire:

**THE MAINE LAW.**—It is my opinion, that liberty is a more sacred thing than the suppression of vice. Compulsory virtue leads to no true moral progress. I would rather see all mankind drunk by choice, than one man sober on compulsion.

**MILWAUKEE AND HORICON RAILROAD.**—The contractors have broken ground on this road at Horicon, and intend to have the section from Horicon to Wabash completed and ready for use by the time the La Crosse and Milwaukee road reaches Horicon. —*Young America.*

**DOUGLASS WITH HIS FLAIL.**—Senator Douglass has aroused the indignation of the know nothing, without the least provocation, or necessity. He seems to be a blathering sort of marplot, without sufficient tact or sense to avoid running his head against a wall, when there is abundant room to go around it. He was invited to address the democracy in Philadelphia, on the fourth, and instead of confining himself to legitimate topics of discussion, which must he do to launch off in a tirade of abuse, of the know nothings, whom he denounced unspareingly, as enemies of the constitution and ignorant of the aims of true government. So unpalatable was his language and manner, that the audience became excited—several persons expressed their disapprobation of the speaker's remarks; there were cries of "let him go on in his own way!" "Turn him out!" &c., and when he attempted to engage the attention of the disaffected he failed utterly, and brought his speech to an abrupt close.

According to our information respecting the conduct of affairs in Pennsylvania, the whigs did not need any aid from Douglass to render their triumph certain at the October election. The democratic party is assuredly foredoomed to ignominious defeat; but it was an ungracious as well as foolish proceeding on the part of the little demagogue, to increase and complicate the embarrassments of his associates, without the least prospect of benefiting himself. Such a course might have been expected of him, however; for he has been swinging his flail with great damage to himself and friends, ever since he undertook to make capital at the south by repeating the Missouri compromise. The concentrated efforts of all the whigs in the county would not have worked so much injury to the democratic party in a twelve-month, as Douglass produced in one-fourth that time. He has turned free states against the administration, and secured an opposition majority in the next congress; and like the English magistrate, spoken of by Mr. Weller, who never committed a prisoner without first committing himself, he has acted with perfect impartiality, and involved himself in the ruin he has brought upon Pierce.

—*Buff. Com. Ad.*

**PROSPECTS OF AN ATTACK ON SEVASTOPOL.**—The following is an extract of a letter from the Black Sea to the London Times:

"Unless the enemy leaves Sevastopol, it is difficult to see what can be done in that quarter except to watch the harbors closely and distress the empire by the destruction of its maritime trade. Every means has been used to draw the Russians from the security of their batteries. First, the fleet approached, leaving behind two of three deckers, which were stationed out of sight of the Russians, but sufficiently near to come to the assistance of the squadron in case of need. It was thought that the appearance of a diminished force would tempt the enemy to a sortie, but the Muscovites remained immovable. Next the fleet lay off, and two seamen went in close to the mouth of the harbor, but with no better success. A sailing frigate was next sent, which might inspire hope of capture with a short race. All these expedients have been equally unavailing, and the Russian fleet is no doubt furnished with explicit instructions not to venture out. An attack on Sebastopol itself is not doubt impracticable, except with the assistance of a land force. The ships must enter singly into the narrow mouth of the harbor, were the fire of 800 pieces of cannon be directed on each one in turn! Naval officers say that even the smoke caused by so tremendous a fire would be sufficient to make the entrance quite impossible, except to those who knew the harbor well."

Miss Delta A. Webster, who closed from Kentucky, a few weeks since, where she had been again arrested on charge of assisting slaves to escape, was taken on Saturday last and lodged in jail, at Madison, to await the result of a writ of habeas corpus. Delta gives the Kentuckians a lot of trouble; she is about as hard to conquer as the Florida Indians.

The Elmira Gazette says:

"When you see a man in business who will neither advertise or take his own town paper, look out for a mean, penurious skinflint, too tight to enjoy good health, and who holds a penny so near his nose, that he can't see a dollar.
